

Addition Problems

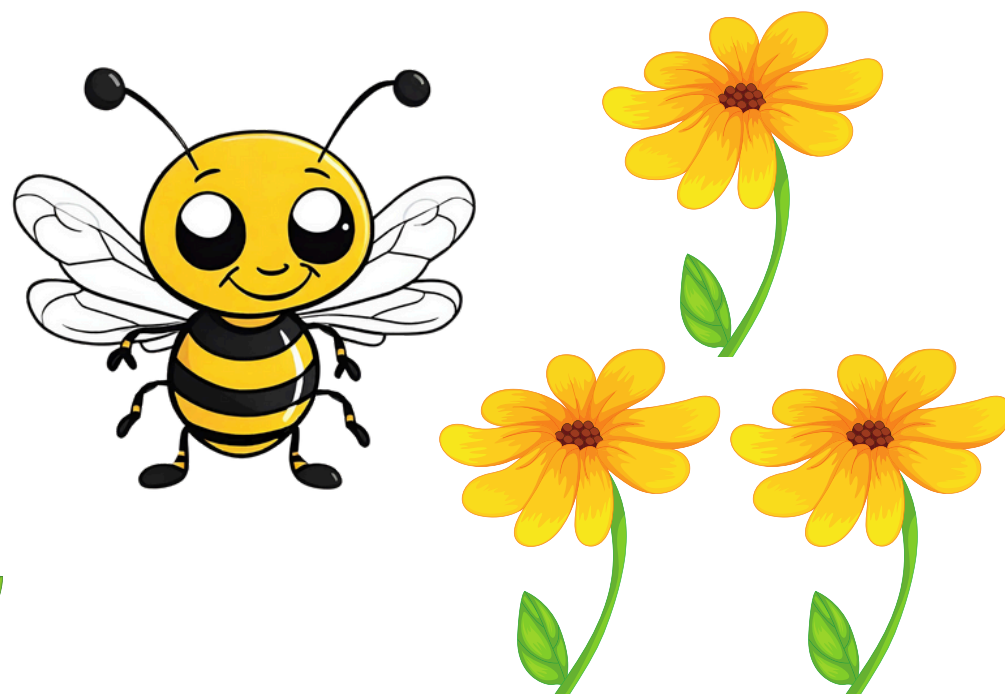

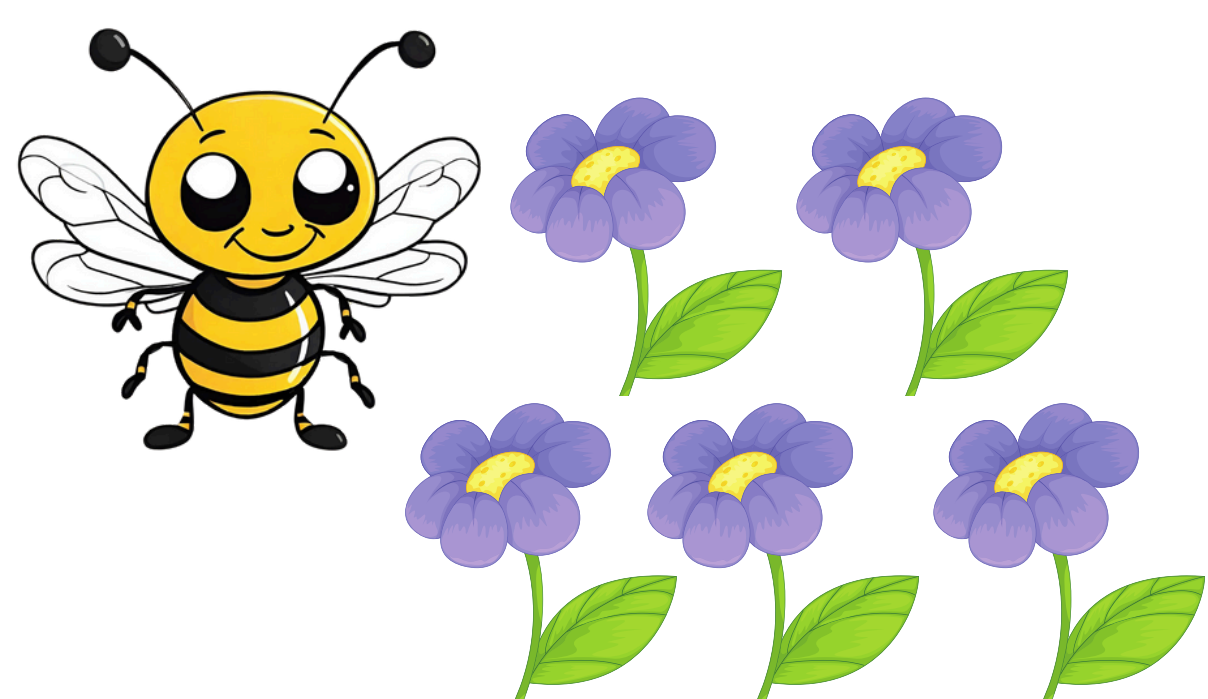

Read each word problem. Count the pictures to find the sum.

A turtle finds 4 small shells and 2 big shells on the beach. How many shells does the turtle find in total?

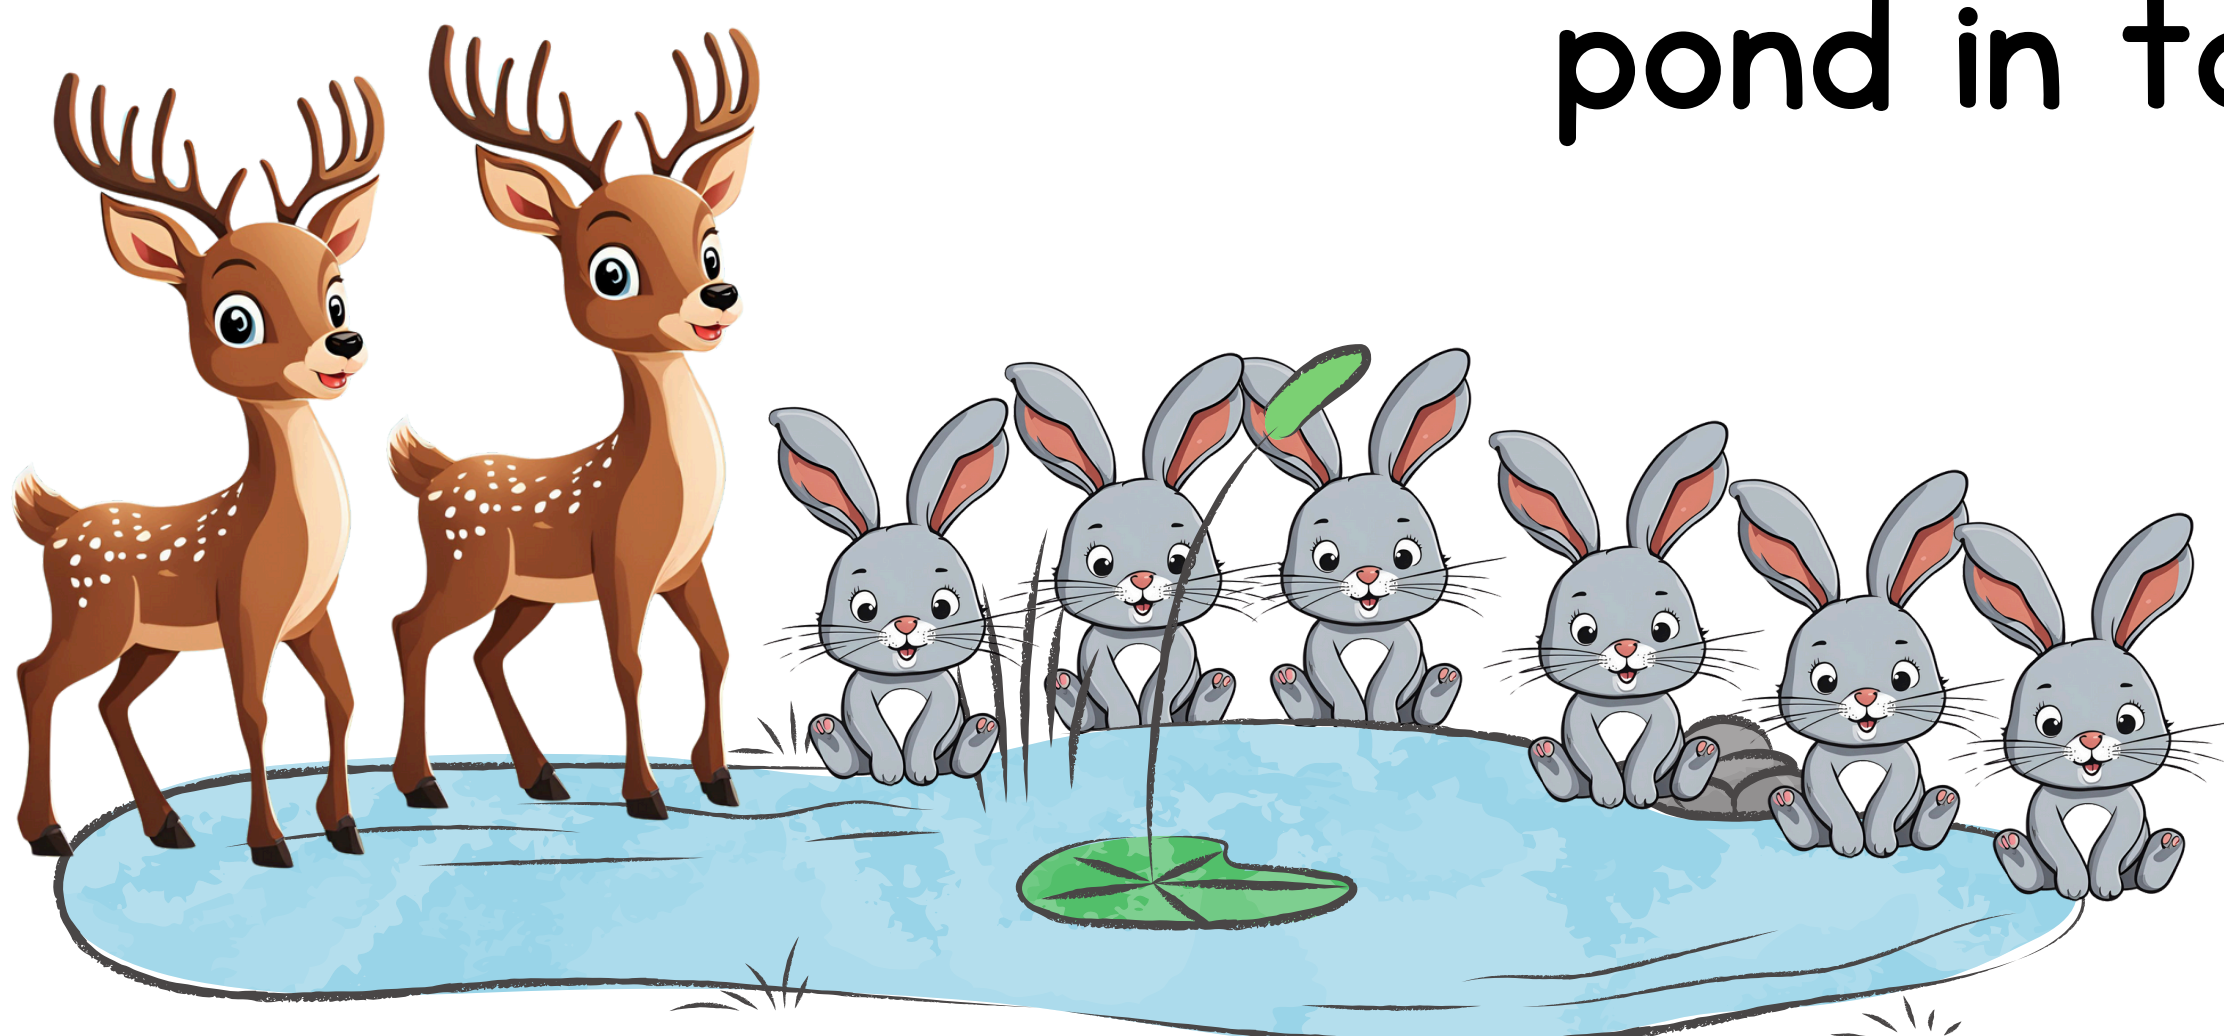

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

In the garden, one bee visits 3 flowers, and another bee visits 5 flowers. How many flowers do the bees visit altogether?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$

In the forest, there are 2 deer and 6 rabbits gathering near a pond. How many animals are gathering near the pond in total?

$$\underline{\quad} + \underline{\quad} = \underline{\quad}$$
