

Subtraction

Subtract the number of animals taken away and write down how many are left.

$$\begin{array}{ccc} \text{Bee} & \text{Bee} & \text{Bee} \\ \text{Bee} & \text{Bee} & \text{Bee} \end{array} - \text{Bee} = \square$$

$$\begin{array}{cccc} \text{Seahorse} & \text{Seahorse} & \text{Seahorse} & \text{Seahorse} \\ \text{Seahorse} & \text{Seahorse} & \text{Seahorse} & \end{array} - \text{Seahorse} = \square$$

$$\begin{array}{ccc} \text{Fish} & \text{Fish} & \text{Fish} \\ \text{Fish} & \text{Fish} & \text{Fish} \\ \text{Fish} & \text{Fish} & \end{array} - \text{Fish} = \square$$

$$\begin{array}{ccc} \text{Ant} & \text{Ant} & \text{Ant} \\ \text{Ant} & \text{Ant} & \text{Ant} \\ \text{Ant} & \text{Ant} & \text{Ant} \end{array} - \text{Ant} = \square$$
