

Subtracting with Base 10 Blocks

 = 10 Blocks

 = 1 Block

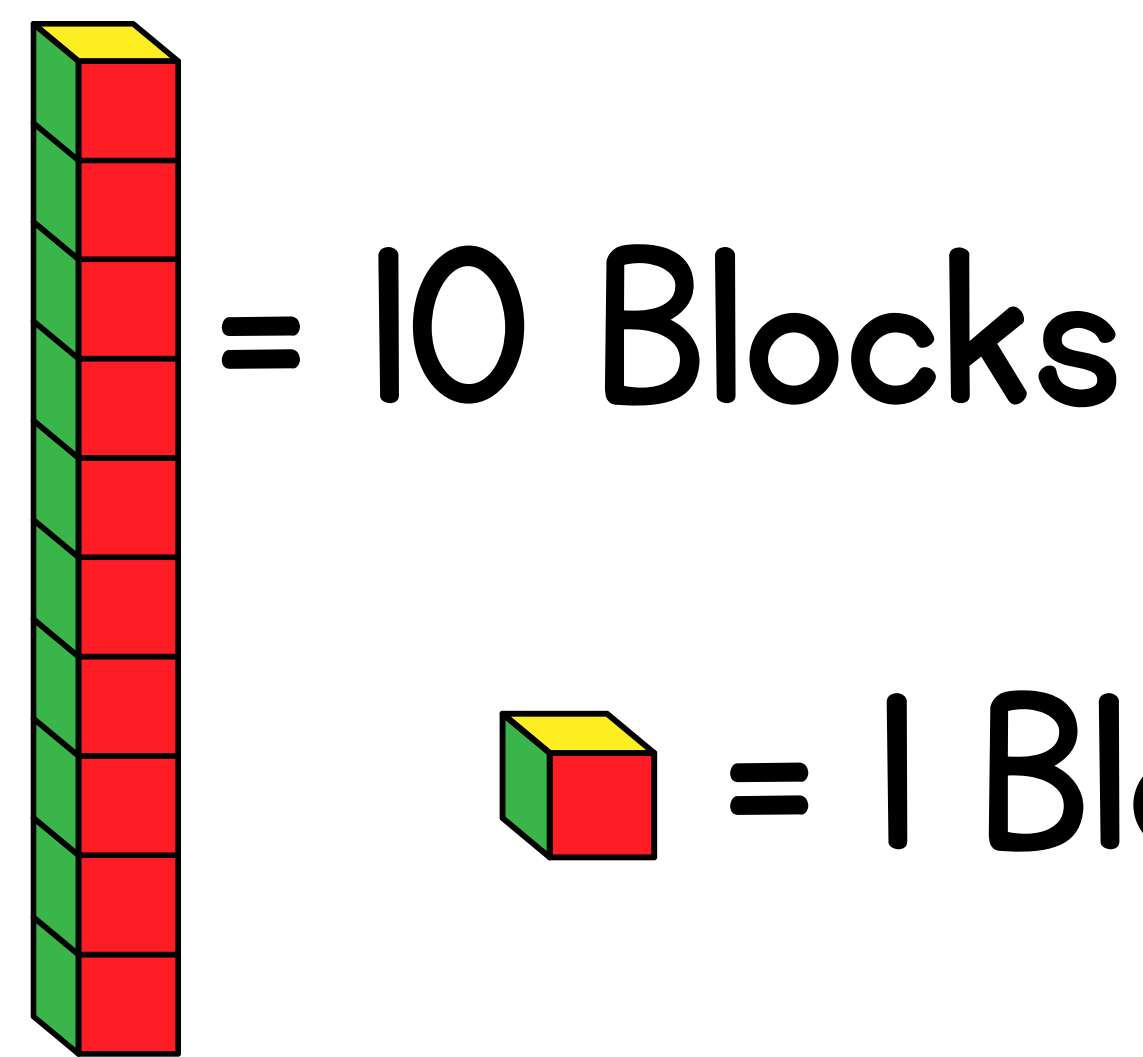

Count the blocks and subtract 10.

Example

 $14 - 4 = 4$	 $- =$	 $- =$
 $- =$	 $- =$	 $- =$

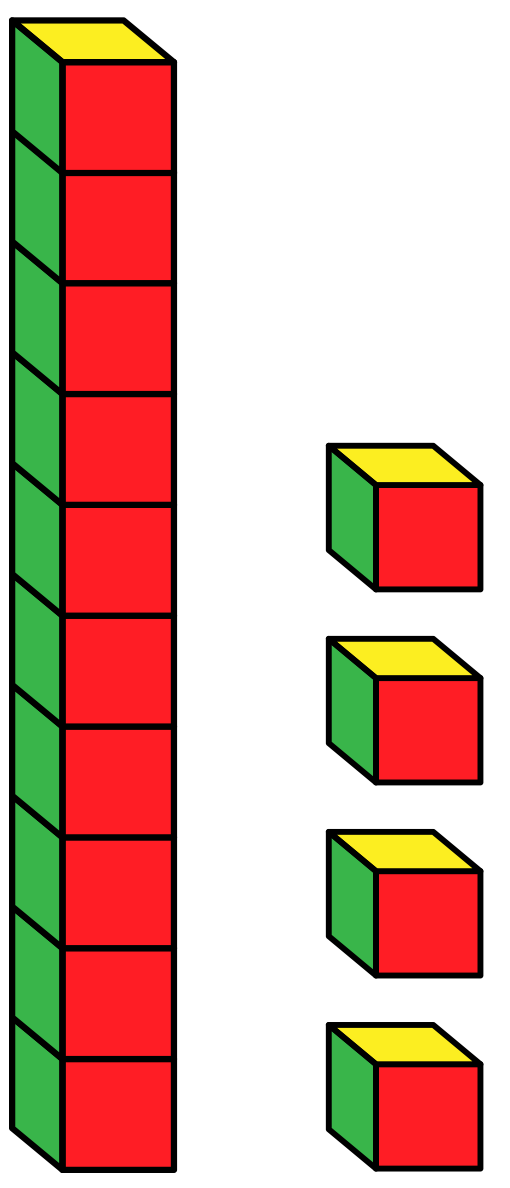

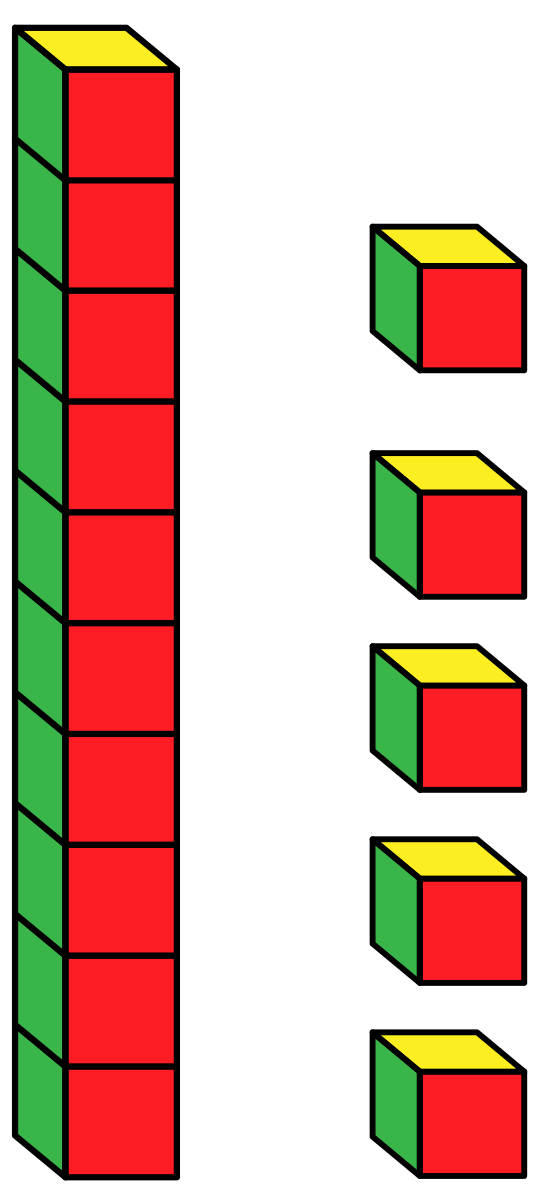

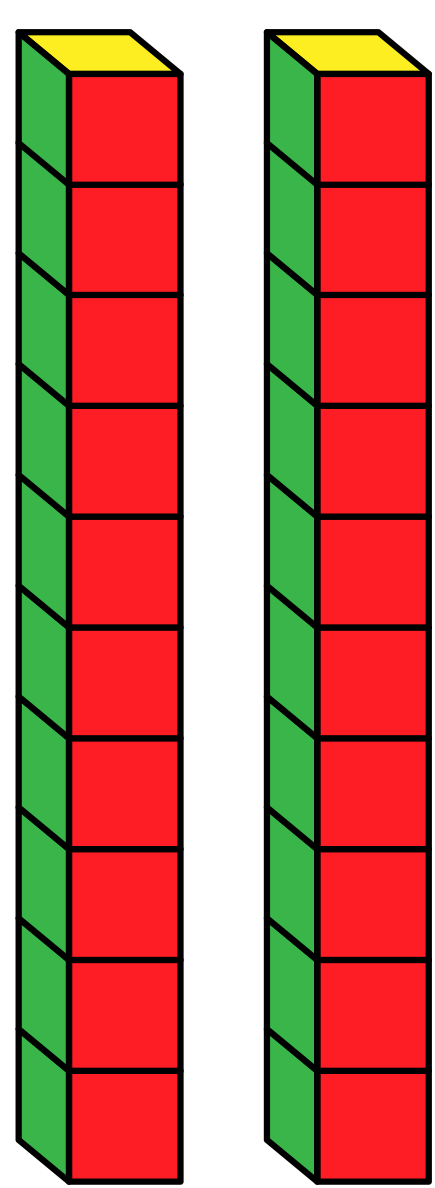

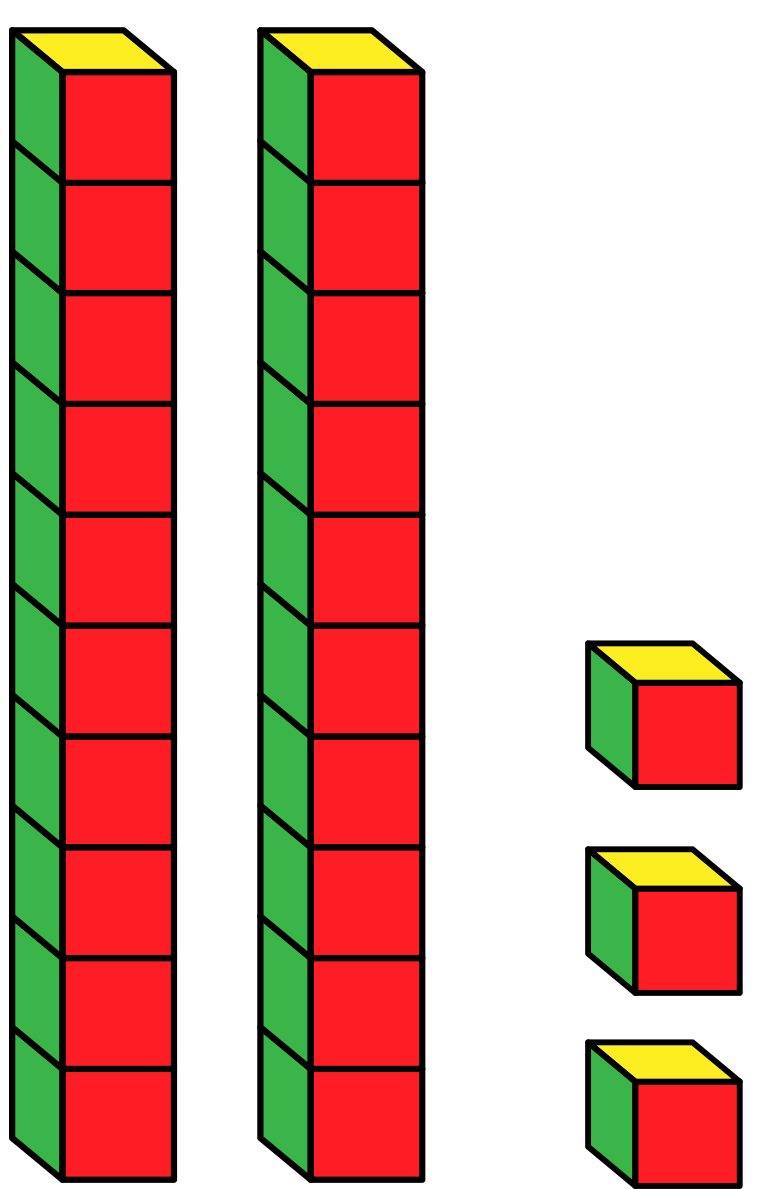

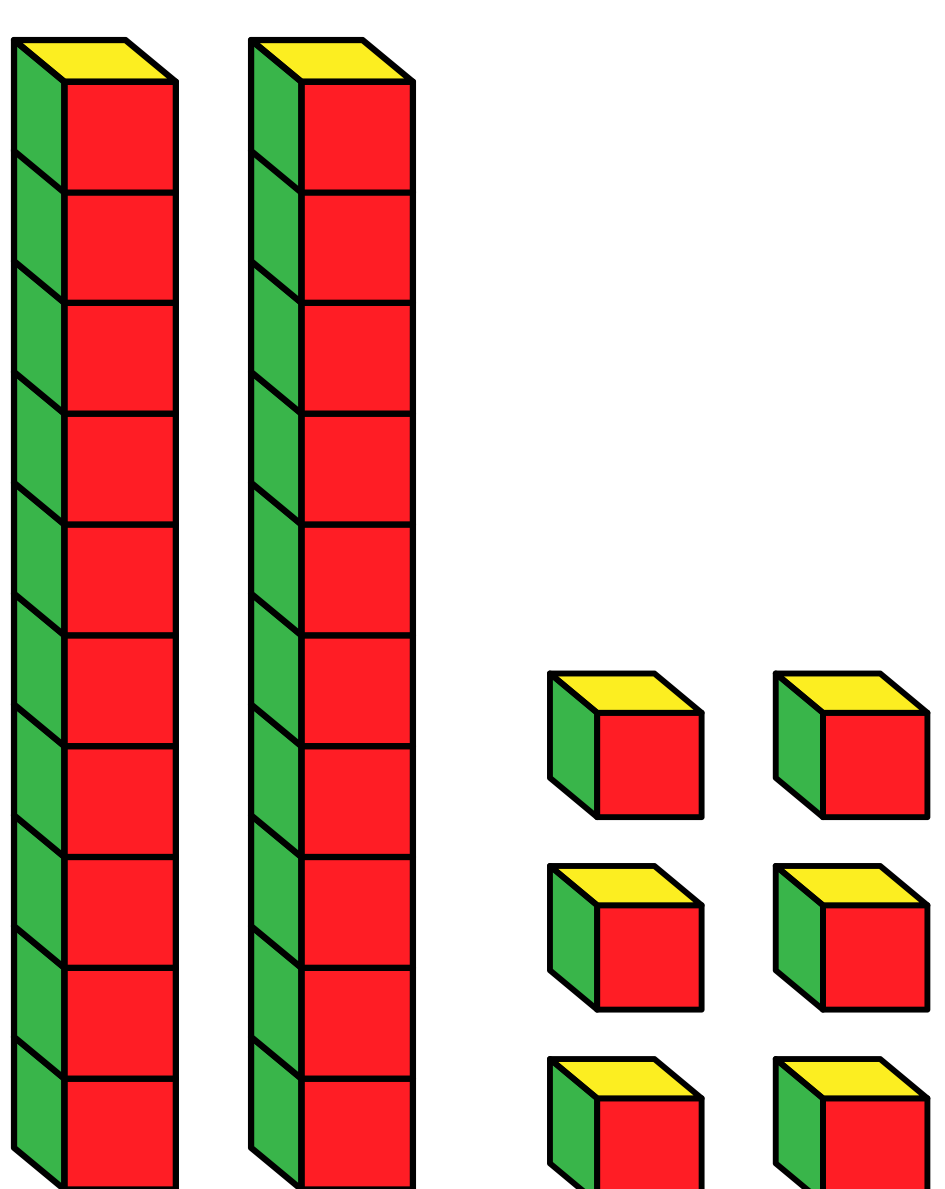

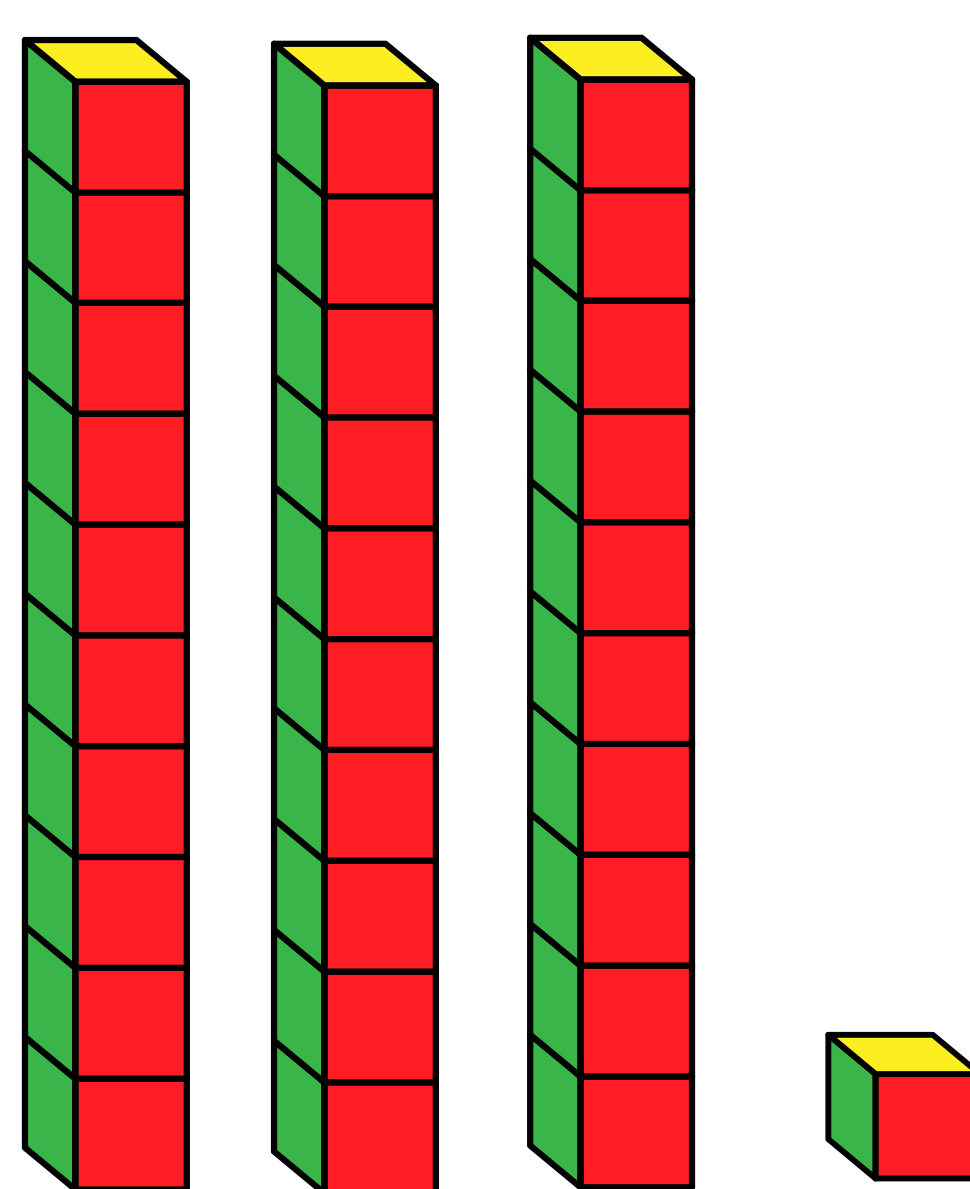

Subtracting with Base 10 Blocks

Count the blocks and subtract 10.

Example

 $14 - 4 = 4$	 $15 - 10 = 5$	 $20 - 10 = 10$
----------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------

 $23 - 10 = 13$	 $26 - 10 = 16$	 $31 - 10 = 21$
-------------------------------------------------------------------------------------------------------	--------------------------------------------------------------------------------------------------------	---------------------------------------------------------------------------------------------------------
