

# Adding with Number Lines

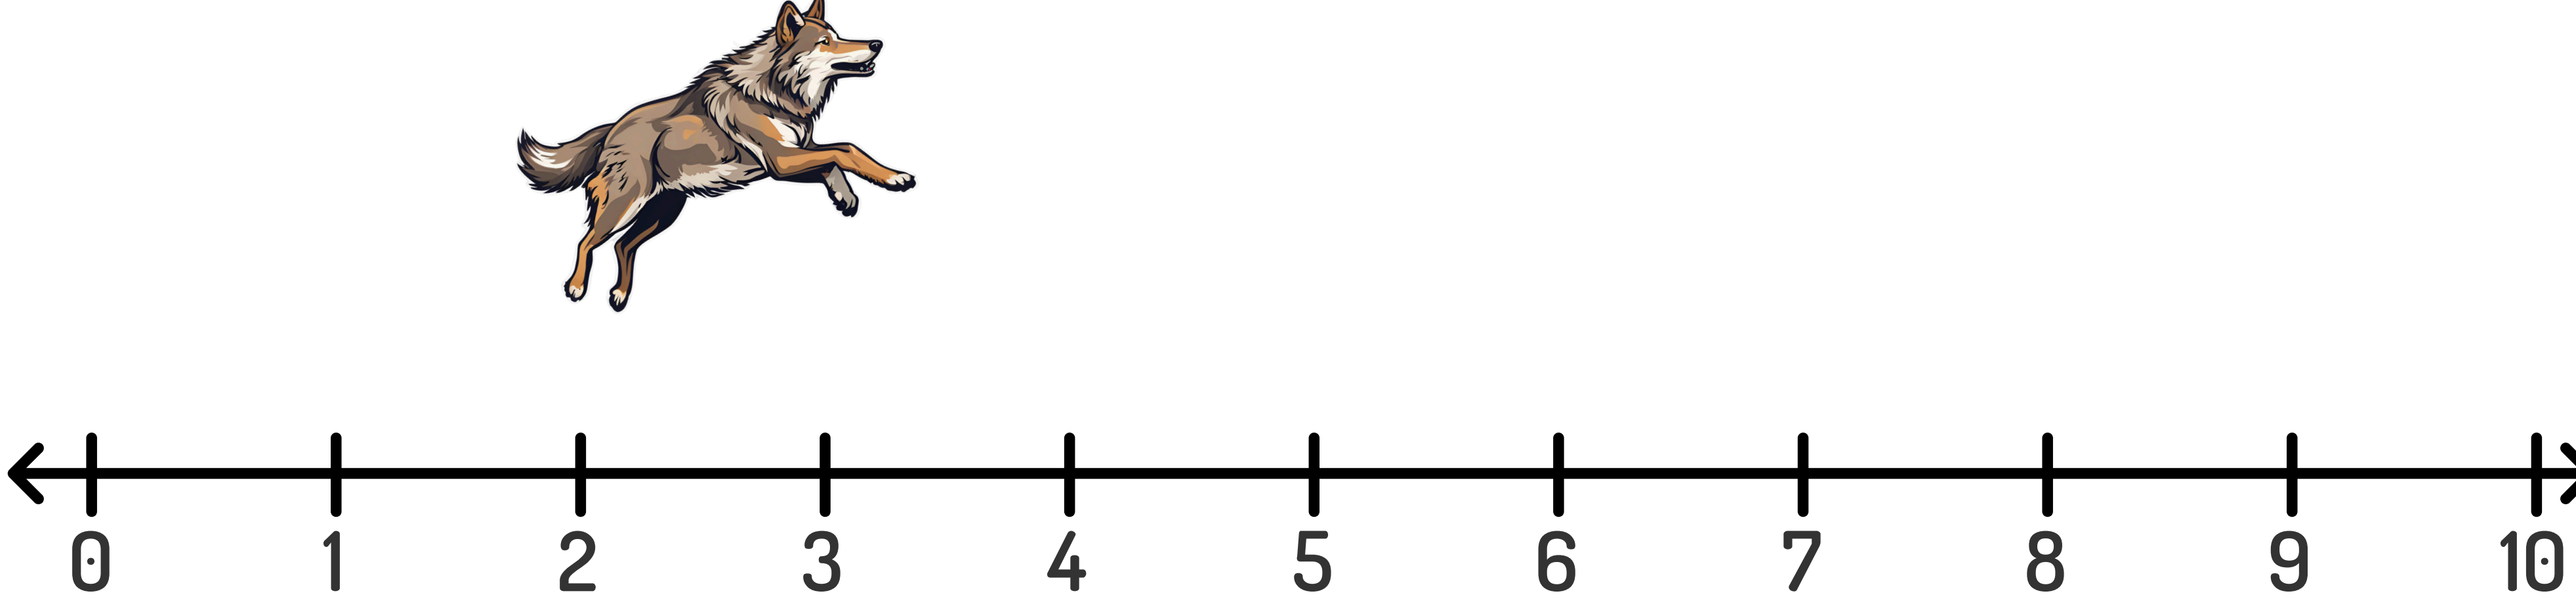

Draw the hops on the number line and write the answer to the math sentence.

A number line from 0 to 10. A red curved line starts at 3 and ends at 7, representing a hop of 4 units. A cartoon rabbit is jumping on the line between 3 and 7.

$$\boxed{3} + \boxed{4} = \boxed{\phantom{00}}$$

A number line from 0 to 10. A cartoon deer is jumping from 3 to 4, representing a hop of 1 unit.

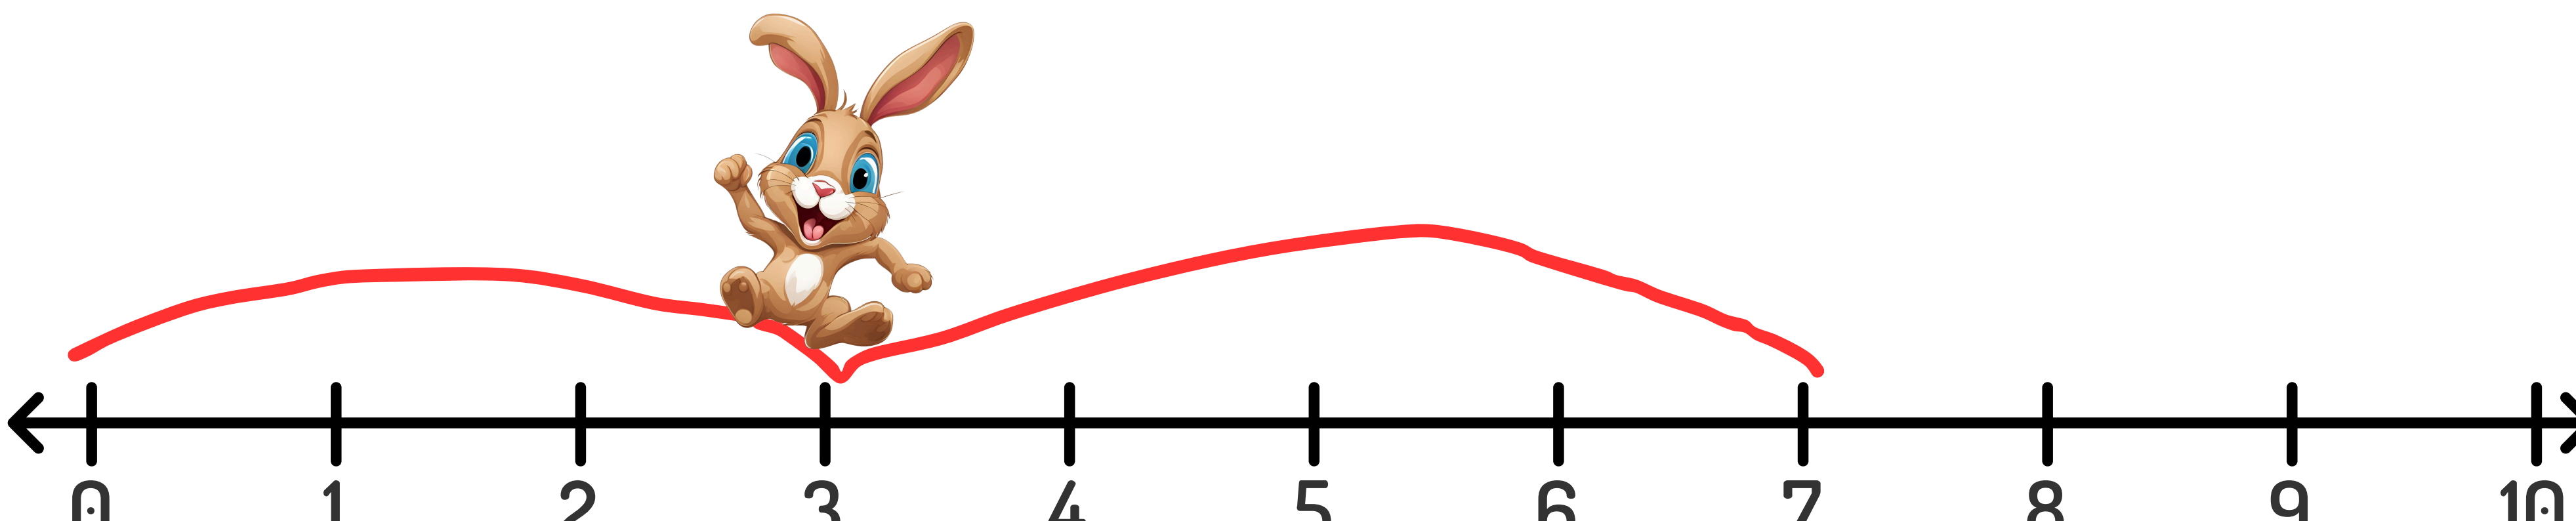

$$\boxed{1} + \boxed{1} = \boxed{\phantom{00}}$$

A number line from 0 to 10. A cartoon wolf is jumping from 2 to 7, representing a hop of 5 units.

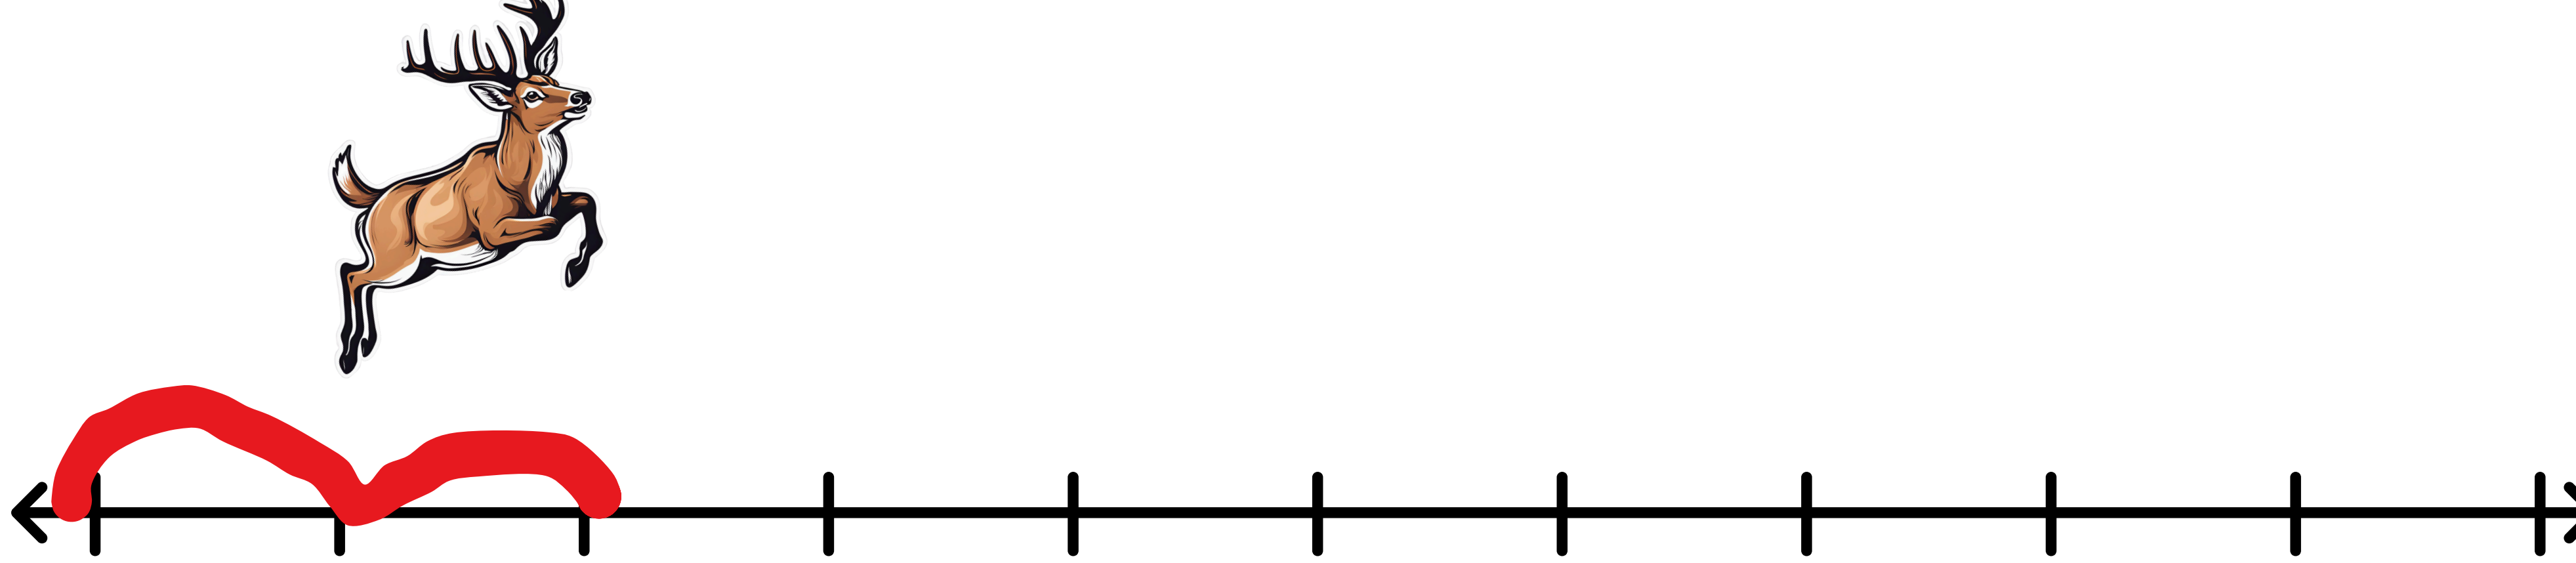

$$\boxed{2} + \boxed{5} = \boxed{\phantom{00}}$$

# Adding with Number Lines

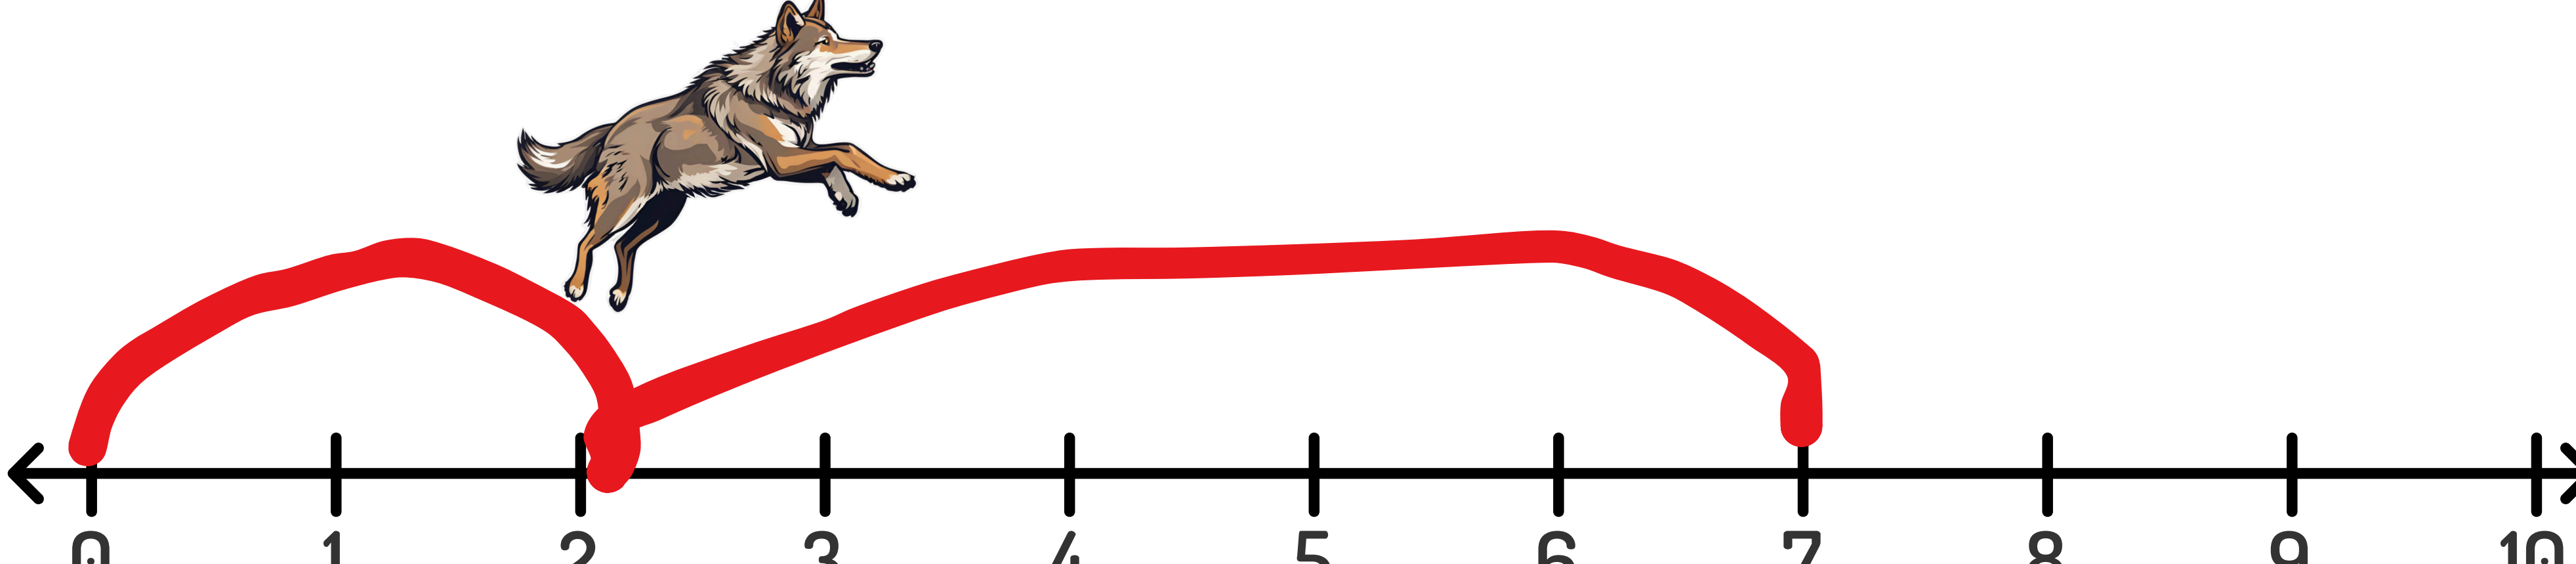

Draw the hops on the number line and write the answer to the math sentence.

A number line from 0 to 10. A rabbit is sitting on the number 3. A red curved line starts at 3 and ends at 7, representing a hop of 4 units.

$$\boxed{3} + \boxed{4} = \boxed{7}$$

A number line from 0 to 10. A deer is jumping above the number 1. Two red curved lines are drawn: one from 0 to 1 and another from 1 to 2, representing two hops of 1 unit each.

$$\boxed{1} + \boxed{1} = \boxed{2}$$

A number line from 0 to 10. A wolf is running above the number 2. Two red curved lines are drawn: one from 0 to 2 and another from 2 to 7, representing hops of 2 and 5 units respectively.

$$\boxed{2} + \boxed{5} = \boxed{7}$$
