

Addition and Subtraction Story Problems

In the forest, 5 bears are looking for honey. Soon, 4 more bears join them. How many bears are looking for honey now?

There were 10 ducks swimming in a pond. After a while, 6 ducks flew away. How many ducks are still in the pond?

There were 7 frogs sitting on lily pads. Then, 3 more frogs jumped onto the lily pads. How many frogs are there now?

Later, 4 frogs hopped away. How many frogs are left on lily pads?

Addition and Subtraction Story Problems

In the forest, 5 bears are looking for honey. Soon, 4 more bears join them. How many bears are looking for honey now?

$$5 + 4 = 9$$

There are 9 bears looking for honey now.

There were 10 ducks swimming in a pond. After a while, 6 ducks flew away. How many ducks are still in the pond?

$$10 - 6 = 4$$

There are 4 ducks still in the pond.

There were 7 frogs sitting on lily pads. Then, 3 more frogs jumped onto the lily pads. How many frogs are there now?

$$7 + 3 = 10$$
 There are 10 frogs now.

Later, 4 frogs hopped away. How many frogs are left on lily pads?

$$10 - 4 = 6$$
 There are 6 frogs left on the lily pad.
