

Measure Word Problems

Read the problem, solve the math, check the right box,
and color the animals!

A dog buried a 7-inch bone in the yard. Later, he
found another 5-inch bone. How long are both
bones together?

A cat jumped 18 inches up a tree but then climbed
7 inches back down. How high is the cat now?

A wolf ran 10 inches through the snow in the
morning and 6 inches in the afternoon. How far
did the wolf run in total?
